CPT 26770: “Closed treatment of interphalangeal joint dislocation, single, with manipulation; without anesthesia.”

CPT 26775: “requiring anesthesia.”

CPT 26776: “Percutaneous skeletal fixation of interphalangeal joint dislocation, single, with manipulation.”

CPT 20694: “Removal, under anesthesia, of external fixation system.”

CPT 26740: “Closed treatment of articular fracture, involving interphalangeal joint; without manipulation, each.”

CPT 26742: “with manipulation, each.”

Disclaimer: The information provided in this document is current as of January 2019 and was obtained from third-party sources and is subject to change without notice as a result of changes in reimbursement laws, regulations, rules, policies, and payment amounts. The codes contained within this document are representative of possible services or diagnoses that may be associated with use of HBL products. This is not a complete listing of possible codes. Not all of the codes are necessarily to be used together. Some codes may be considered a component of another (‘bundled’). Final determination of the correct or appropriate coding for services performed is made by the claims submitter/provider and should be consistent with the billing policies of the patient’s health insurance program.
